Hoofland's German Tonic, Was compounded for those not ipeliped to extreme pitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the tonic proper-ties of the Bitters. Each bottle of the tonic contains one bottle of the Bitters, combined with pure Santa Crox Rum, and fla vored in such a manner that the extreme bitterness is overcome, forming a preparahoughts, and containing the medicinal virtues of the Bitters. The price of the Toric is \$1.50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor ar-ticle could be furnished at a cheaper price, but is it not better to pay a little more to have a good article? A medicinal preparation should contain none but the gredients; and they who expect to obtain a cheep compound and be benefitted by it, will most certainly be cheated.

The Calabar Grains are the appropriate remedy for the Literary, atudious and the brain working classes, and those unable or disinctined for sufficient physical exercise, and who are usually "billious." They are the favorite medicine of the ladies; they are the preventive and cure of nausea and headache of those voyaging; children can take them; they are now the "cunce of preventative;" they are sapplesed like, tasteless and inodorous.
